

Installation Instructions

Description of installation Research pro 4860, version 1.56

Extract the zip-file (4860LP156ID2.zip) into the folder "Serv4860" (default C:\Program\Serv4860)

Note:

The name of the program (4860LP156ID2.SVD) must not be changed!

Use the program only for PCB version 1.56

For detection reason, the new keypad must be fitted (grey colored buttons for Program / Speed / Option)

Due to the changed operation, the customer must be supplied with the new [operation manual](#) (4860 900.012)
